

Dear Parents/Carers,

Welcome to my weekly update newsletter . I hope that you are all keeping well and staying safe.

In recent weeks, I know you will all have seen the events that have taken place following the death of George Floyd in America. These events serve to remind us of the ongoing presence of racism. Racism remains a worldwide issue, and as a school we are committed to challenging racism and all forms of prejudice.

As a school community we educate about the equality of all citizens, both in assemblies and within history and PHSE lessons and we are currently re evaluating our school curriculum, in order to best prepare our children for Modern Britain and the wider world.

Mrs K Coker—Head Teacher.

Phased returns

Last week we welcomed our Year 6 pupils back to school. They have settled in to the new routines very well, despite school looking very different and routines being very different too. Children are in very small 'bubbles' of no more than 8, with the same staff. I am so proud of our children and staff who are doing so well in these very unusual circumstances.

Our Year 1s have joined us this week, and it has been a joy to see their smiling faces. They all tell me that they are happy to be back in school.

Travelling to school

Remember; if you are travelling to school using public transport it is a requirement that you wear a face covering. This is to keep yourself and others safe.

Showing symptoms of the virus?

If someone in your household shows symptoms you **MUST NOT** come to school.

If a child **DOES** present with symptoms of the virus, they will be asked to self isolate and we will call for you to come and collect them straight away. Children are eligible for testing—we ask you to arrange for this immediately. A positive test would mean that other children and staff in their bubble would be instructed to isolate immediately. This could also result in school closure. We would ask that you let us know the outcome of the test.

Wash your hands

Washing your hands is one of the easiest ways to protect yourself and others from illnesses.

You should wash your hands for the amount of time it takes to sing "Happy Birthday" twice (around 20 seconds).

 HM Government

Coronavirus

Wash your hands with soap and water more often for 20 seconds

Use a tissue to turn off the tap.
Dry hands thoroughly.
