Vocabulary

habitat	The home of an animal or plant.
Rainforest	The largest one is in Brazil. It is called the Amazon. The tallest trees in the world are here called Redwood.
Titan Arum	The smelliest flower in the world. Rafflesia is the largest flower.
germination	The seed takes in water and swells up. The root pushes its way out.
shoot	Grows upwards from the seed or plant to find sunlight.
Stem	The thin, upright part of a plant on which the flowers and leaves grow.
Roots	The parts of a plant that grow under the ground.
Leaves	The parts of a tree or plant that are flat, thin, and usually green.
Petals	Thin coloured or white parts which form part of the flower.
Flower	The part of a plant which is often brightly coloured and grows at the end of a stem.
